By the time you receive this newsletter, I will have completed my term as President of the Society of Rogerian Scholars. I have to admit that I have very mixed emotions about this. I have some sense of relief at being able to hand over the responsibilities of my office to Dr. Richard Cowling, who I know will be an excellent President. Yet, I also have some feelings of sadness at not being a formal member of the SRS Board for the first time in several years. As President, I have been extremely fortunate—and privileged—to have served with such exceptional, hard-working individuals, and I will very much miss working with them on a regular basis. Not all is lost, however, as I have agreed to serve as Chair of the Program Committee during the coming year, and I certainly plan to remain active in SRS.

I would like to thank all those who have served on the SRS Board of Directors with me during my term of office. I would especially like to thank Dorothy Larkin, who has completed her term as Vice President, and Dr. Francis Biley and Dr. Leah Gorman, who have completed their terms as Directors. By the way, please send lots of “Rogerian hugs” to Dorothy as she embarks on her dissertation research.

Serving as President of SRS can be a wonderful and gratifying experience. I leave office with the knowledge that SRS remains a strong organization, and we have lots of plans for our future evolution as an organization.

I have a favorite quote from George Bernard Shaw that seems appropriate at this time: “Life is no brief candle to me! It is a sort of splendid torch that I have got hold of for the moment, and I want to make it burn as brightly as possible before handing it on to future generations.” I hope my torch has burned brightly during my service as President, and I now pass the torch to our new President, Dr. Richard Cowling.

New Board of Directors

Elections for SRS were held this Spring. With the election results reported, the new Board is comprised of the following members:

**President:** Richard Cowling (1999-2001)

**Vice President:** Howard Butcher (1999-2001)

**Secretary:** Sonya Hardin (1998-2000)

**Treasurer:** Bela Horvath (1999-2001)

**Directors:**
- Martha Raile Alligood (1999-2001)
- Joanne King Griffin (1999-2001)
- Pamela Reed (1998-2000)
- Fran Reeder (1998-2000)

**Nominating Committee:**
- Alice Adam Young (1998-2000)
- Diana Lynn Morris, Chair (1998-2000)
- Sarah Hall Gueldner (1999-2001)
- Linda Johnston (1999-2001)

**Congratulations to all new Board members! We are grateful for the contributions of all outgoing Board members! Welcome back to all the ongoing Board members! There will be more information about your SRS Board of Directors in the next SRS Newsletter.**
Dialogue '99

The Martha E. Rogers Center for the Advancement of Nursing Science hosted the 5th Dialogue, a gathering of forty individuals who come to New York University to engage in a two day dialogue on the science of unitary human beings. This year the event was held on June 4th and 5th. Dialogue 99 was led by Howard Butcher, RN, PhD, Assistant Professor of Nursing at the University of Iowa. Howard showed sensitivity to mutual process, employing creative strategies to enliven the conversations and inspire novel thinking. His synthesis of the group dialogue demonstrated the real spirit of pattern recognition and appreciation. The group explored conceptual, theoretical, and practical dimensions of unitary science by using the process of writing a new edition of Martha’s “purple book.” The following testimonial by Roberta Hills gives you a flavor of the benefits of attending Dialogue:

“The 1999 Dialogue has been an opportunity for me to sit back and reflect on ideas and to expand my thinking. The group reaction has also been helpful in refining my ideas. The whole experience has allowed me to get away from a rather busy and hectic lifestyle to do something that I truly love, thinking and working within nursing science with the mission of advancing the science. I see the value in doing this not only for myself but to advance Rogers’ Science of Unitary Human Beings. Finally this has been an opportunity to reunite with those scholars who know me personally and those who don’t but who have had a great influence in my life and in my thinking through their written work and through the critique of my work. I was also fortunate enough to encounter some doctoral students who expanded my thinking with their new ideas. Thank you to the NYU faculty and SRS for making this possible (and affordable).” Roberta Hills

The Society of Rogerian Scholars wishes to thank New York University faculty and Head of the Division of Nursing, Dr. Dianne McGivern, for their support of Dialogue. A special thanks goes to Dr. John Phillips for all the time, energy, and hard work he puts into making this event happen and Dr. Joanne Griffin and Dr. Erline McGriff for their support and involvement in this event. These three tireless supporters of “the science” insure the legacy of Martha Rogers is alive and well!

Martha E. Rogers Award

The following is from the 1999 National League for Nursing Award Program

In recognition of a nurse scholar who has made significant contributions to nursing knowledge that advance nursing science, the Martha E. Rogers Award is awarded to: Marlaine Smith, PhD, RN, Associate Professor and Director, Masters Program, University of Colorado Health Sciences Center, Denver, CO.

Marlaine Smith’s prominent areas of research and creative work are nursing philosophy and metatheory and processes and outcomes of healing. She has published extensively on the application of nursing theory in practice and has consulted nationally and internationally on nursing theory-based practice, qualitative research methods, and outcome evaluation for complementary healing modalities. Dr. Smith’s current research examines healing outcomes of touch therapies during bone marrow transplant.

Dr. Smith received her BSN from Duquesne University, her MNEd and MPH from University of Pittsburgh, and her PhD from New York University. She is currently Associate Professor and Director of the Masters Program at the University of Colorado Health Sciences Center School of Nursing.

Previous Award Winners:

1985 Martha E. Rogers
1987 Dolores Kriegar
1989 No Award
1991 Sister Callista Roy
1993 Margaret Jean Watson
1995 Florence Downs
1997 John Robert Phillips

"On behalf of the Board of Directors of the Society of Rogerian Scholars, I would like to congratulate the recipients of this year’s Martha E. Rogers Scholarships."

Hideko Menegishi, Kitasato University, Japan
Donald Nichols, Washburn University, Topeka, KS
Rachel Wilson, New York University, New York, NY

CONGRATULATIONS!

The Institute for Unitary Living, Learning, and Healing

The mission of the Institute is to provide experiential retreats for awakening the possibilities that exist in living, learning, and healing from a unitary world view. The inspiration for this retreat is the life and work of Dr. Martha E. Rogers who brought the world an innovative conceptual and theoretical perspective to inform our understanding of the wholeness of human beings and their environments. It is her nursing conceptual framework, the science of unitary human beings, that will be the basis for generating the content and experiential process of the retreats.

The retreats will serve the following purposes:

1. giving voice to the struggles and challenges of living in a social world that promotes and supports fragmentation rather that wholeness
2. exploring opportunities for transcending current thinking and practices through application of a unitary perspective
3. participating in the creation and discovery of unitary ways of living, learning, and healing
4. examining the conceptual and theoretical foundations as well as the state of knowledge that guides unitary science and art
5. igniting torches of unitary enlightenment that will serve participants and their communities

The structure of the institute will be retreats held in natural settings using experiential strategies to demonstrate unitary approaches to living, learning, and healing. The focus will be on mutual learning, exploration, and nourishment. The design of each institute will be dependent on emerging interests and developments associated with the science of unitary human beings.

Institute 2000: Waking Up Alive

This institute will give attention to the current state of health care which is based on materialism, is self-serving, shallow, and spiritually impoverished that fosters a sense of disenchantment with wholeness. It is being offered to nurses as an experience of awakening to the potentials and possibilities within unitary, mutual nourishment. The institute will serve to create a process and environment that will enable nurses to use nursing with one another through unitary practices to enhance our wakefulness, our joy, our spirit of aliveness, and our potentials for healing ourselves, our profession, and health care.

Institute 2000 will be held the second week of August. We are searching for a natural location that will serve the purposes of the retreat format and provide meals and lodging at a reasonable cost to participants. The registration fees for the institute will be dependent on expenses to produce the institute. It is our intention to keep expenses for participants at a cost that will facilitate unburdened participation.

Call for Proposals
Institute 2000: Waking Up Alive

We are seeking proposals of experiential sessions based on the science of unitary human beings. These session proposals should be aimed at providing opportunities for active participation and engagement among those attending and demonstrate unitary living, learning, and/or healing. The proposals should be in a simple one page descriptive format stating the purpose (linking it to the unitary perspective) and the actual strategies and/or experiences that will be used. Please send your proposal abstract, typed in single space format with one inch margins, no longer than one page to:

The Foundation of the New York State Nurses Association maintains the Martha E. Rogers Manuscript Collection. Recently, Cathryn A. Welch, EdD, RN, Executive Director, provided us with a list of materials housed in this collection. The list is provided below for those interested. Dr. Welch's letter demonstrates that the collection has a wonderful home. “We feel Martha’s indomitable spirit here at the Center. It is an extraordinary privilege to have in our care materials reflective of her singular genius and influence.” "...the Foundation also houses the library and manuscript collections of Eleanor C. Lambertsen. When I came to New York as a young student, Martha and Eleanor dominated the “nursing scene” not only in New York but also around the world. At that time Martha and Eleanor arranged for NYU and TC nursing students to meet together on various occasions. One of my fondest and most vivid memories is of the often brilliant, always stimulating, and unfailingly mutually respectful professional and personal repartee between Martha and Eleanor. I knew that I was in the presence of greatness. I’m sure that you can understand that on quiet days here at the Center it almost seems I can hear them - still debating, joking with and enjoying each other.” Visitors are welcome at the Center.

SOCIETY OF ROGERIAN SCHOLARS
MARTHA E. ROGERS SCHOLARS FUND, INC.

The Society of Rogerian Scholars Martha E. Rogers Fund was established in 1994. The Fund is exclusively charitable and educational with the following purposes:

- Educate the public about the nursing community’s roles in health care.
- Promote the use of the Rogerian Science of Unitary Human Beings for the well being of people.
- Provide scholarships and fellowships to persons who are studying and using the Rogerian Science of Unitary Human Beings.
- Cooperate with local, national or international not-for-profit organizations to inform the public about Rogerian nursing science.
- Conduct activities that are necessary, useful, or desirable in accomplishing the purposes of the Fund.

PARTICIPATING

Martha E. Rogers said, “Dream Big!” You can make her dream a reality through your generous contribution or gift. The purposes of the fund can be achieved through your participation in her dreams and visions. Yes, I want to participate in the dreams and visions of Martha E. Rogers.

My contribution of $250.00 $100.00 $50.00 $25.00 Other is enclosed.

Editors' Corner

The purpose of this newsletter is to provide an international forum for the discussion and critique of the Science of Unitary Human Beings. We are now back in publication. Please help us by participating in this unique opportunity for dialogue and exchange of ideas! Send contributions in the form of articles, abstracts, case studies, clinical vignettes, and letters to the editor. All materials submitted should be typewritten, following APA format. If possible, please provide a copy of your material on a 3 1/2 inch disk prepared on an IBM or IBM compatible computer or you may send files via EMAIL to wcowling@hsr.vcu.edu. The newsletter is produced on an IBM PC using WordPerfect 6.1 and PageMaker 6.0. Acceptance of materials for publication is subject to space limitations and editorial review. Also, please send brief announcements about completed unitary dissertations and theses and noteworthy events directly via e-mail or hard copy mail.
