The Society of Rogerian Scholars (SRS) was founded in 1988 with the mission of advancing nursing science through an emphasis on the Science of Unitary Human Beings (SUHB). The focus of the Society is education, research, and practice in service to humankind.

In keeping with the mission, abstracts are invited for paper, poster, or other creative presentations or symposia on topics related to the conference theme. Topics grounded in Rogers' SUHB addressing diversity, equity, and inclusion are welcomed. Abstracts will undergo blind review based on:

- appropriateness to the conference theme;
- significance for SUHB theories, practice, education, research, or administration;
- rigor and soundness of methods;
- innovativeness; and
- overall quality.

Submit abstract and contact information via the link below the information needed will be:

1. **Contact and presenter information, abstract title of no more than 15 words**, and type of submission (paper, poster, symposia, creative works specified).
